

We are looking for reinforcement:

To strengthen our team at our head office in Sulzbach am Taunus (near Frankfurt am Main), we are looking for several

Working students (m/f/d) in the area of product management and business development

The activity can be carried out within the framework of an internship or a diploma / bachelor thesis / master thesis or as a working student activity (at least 10 h/week for 3 - 6 months or longer).

What awaits you

You support our product owners and business analysts in an agile environment in the implementation of new features in our products, which are used by leading financial service providers. You independently take on challenging and varied tasks, such as market observation or competitive analyses, and prepare this information for further processing. In our agile teams, you take responsibility for individual components at an early stage, from requirements elicitation, specification and testing to the presentation of results to our customers.

What you bring with you

- You are a student (m/f/d) of economics, natural sciences, computer science or comparable courses of study.
- You have an interest in financial topics, especially in the areas of securities settlement, fund accounting or tangible assets, combined with an enjoyment of working with software and a technical affinity.
- You have worked on projects, ideally you have first experience in software development, also in the area of requirements engineering.
- You are convincing with your analytical and process-oriented approach and are interested in and willing to familiarise yourself with new topics.
- You are characterised by a high degree of self-organisation, resilience and flexibility as well as the ability to work in a team.
- You have very good knowledge of MS Office products and a good technical understanding.
- You have very good language skills in German and English, both written and spoken.

What we offer you

We offer you a modern, attractive and secure workplace with prospects, exciting and varied tasks and projects, flat hierarchies with short decision-making paths and plenty of room for the development and unfolding of your personal and professional strengths.

You can expect a pleasant working environment in air-conditioned offices equipped with the latest technology and conveniently located. The induction phase with your own mentor will give you a smooth start. We support your work-life balance with a flexible working time system, 30 days' holiday, special leave and home office offers. Our offer is rounded off by an attractive and performance-oriented remuneration as well as other benefits.

Convince yourself and let's get in touch right away. We look forward to receiving your application, stating your earliest possible starting date, at job@diamos.com.
