

Student jobs/internships/Bachelor's thesis/Master's thesis

Graduate in software development Java-/web applications

To strengthen our team at our headquarters in Sulzbach/Taunus near Frankfurt/Main, we are looking for a university graduate in computer science/mathematics/science for **Software Developer Java-/Web-Applications** to start as soon as possible

Your challenge

You will support our agile development teams in the programming and further development of our standard business software in the investment area. You will take on challenging and varied tasks and contribute to the professional new development and expansion of the modern and lightweight platform solution with various front-end systems. You will get to know financial and technical tasks, have the opportunity to gradually take responsibility for individual technical components and modules, and work closely with product management.

Your profile

- ▶ Successfully completed studies in the field of computer science, physics, mathematics, or comparable studies
- ▶ Initial experience through internships, student work, or professional experience
- ▶ Knowledge and experience in programming and query languages such as Java, JavaScript, and SQL
- ▶ You have a keen interest in software development, architectures and IT topics.
- ▶ You are motivated and a real team player and are able to work in a structured and independent manner

Our offer

We offer you a modern, attractive, and secure workplace with exciting and varied tasks and projects, and flat hierarchies with short decision paths as well as plenty of room for the development and evolution of your personal and professional strengths.

You can expect a pleasant working environment in air-conditioned offices equipped with the latest technology in a convenient location. The induction phase with your own mentor will give you a smooth start. We support your work-life balance with a flexible working time system, 30 days of annual paid leave, special leave, and remote working options.

Our offer is rounded off by an attractive and performance-oriented remuneration as well as further benefits such as meal allowance, free underground parking, complimentary beverages and fresh fruit, various employee events, and much more. Relaxation during your breaks can be achieved in the modern, fully equipped "Get together kitchen", in our creative room with billiards and table football, or in the nearby Main-Taunus Centre.

Don't hesitate to get in touch so that you can see for yourself. Please send your application stating your salary expectations and earliest starting date to: job@diamos.com.
