

To strengthen our team at our headquarters in Sulzbach am Taunus (near Frankfurt am Main), we are looking for a

## Junior Business Analyst with a focus on fund management

at our headquarters in Sulzbach am Taunus (near Frankfurt am Main) to start as soon as possible

### Your challenge

At DIAMOS, you can expect challenging tasks along the process chain of the investment fund industry. These will serve as the basis for your personal development. We create customised solutions for our customers based on our solution modules.

In the start-up phase, you will receive an introduction to our integrated and modular solutions and get to know the various divisions of the organisation. You will then be involved in the further development of our solutions within the framework of the release cycles and support customer projects from the conception phase to going live. In doing so, you will gain deep insights into the processes of customers, investment products, and modern IT architectures. You will advise customers on the definition of technical requirements, transfer these into technical designs and specifications as a basis for implementation in our products, and create test concepts and test case descriptions. You will also support test execution and form the bridge to IT development.

### Your profile

- ▶ Degree in business informatics or comparable courses of study or training
- ▶ Ideally, initial experience in the banking or investment industry with insights into the use of fund management software, gladly acquired in the form of internships
- ▶ Strong technical understanding of complex processes and interrelationships
- ▶ A high degree of personal responsibility, a structured, goal-oriented and independent way of working, and a strong hands-on mentality
- ▶ Quick perception, commitment, team spirit, and flexibility
- ▶ Excellent knowledge in the use of all standard MS Office applications as well as excellent communication skills in both German and English

### Our offer

We offer you a modern, attractive, and secure workplace with exciting and varied tasks and projects, and flat hierarchies with short decision paths as well as plenty of room for the development and evolution of your personal and professional strengths.

You can expect a pleasant working environment in air-conditioned offices equipped with the latest technology in a convenient location. The induction phase with your own mentor will give you a smooth start. We support your work-life balance with a flexible working time system, 30 days of annual paid leave, special leave, and remote working options.

Our offer is rounded off by an attractive and performance-oriented remuneration as well as further benefits such as meal allowance, free underground parking, complimentary beverages and fresh fruit, various employee events, and much more. Relaxation during your breaks can be achieved in the modern, fully equipped "Get together kitchen", in our creative room with billiards and table football, or in the nearby Main-Taunus Centre.

Don't hesitate to get in touch so that you can see for yourself. Please send your application stating your salary expectations and earliest starting date to: [job@diamos.com](mailto:job@diamos.com).
